

MEDICAL INFORMATION (2023-24)

Each year we are required to update our medical records. Whether or not your child has a medical condition please complete and return this medical information sheet – **even if you feel that we ‘already know’ about an issue.** So many changes can occur with medical information that you will appreciate that we need an annual update.

It is essential that we are aware of any medical conditions, whether they are still current and any changes, at all times.

Could you please complete the attached form and return it to school as soon as possible.

Name of Child _____

Class _____

Does your child have an ongoing medical condition Yes ☐ No ☐

Medical Condition – Asthma ☐ Eczema ☐ ADHD ☐
Hayfever ☐ Other ☐ (Give details below)

Does your child take regular medication for their condition? Yes ☐ No ☐

Name of Medication _____

Dosage _____

Would they require it to be given in school? Yes ☐ No ☐

If prescribed medication is to be given in school the medication must have your child's name on and it is the parents' responsibility to ensure that the medication is in date.

If any 'over the counter' medication needs to be administered then this should be time limited and the medication must be in date and in the original packaging from the manufacturer which includes the name of the medicine and recommended dosage range for a child of their age.

In either case you will also need to sign an indemnity form and speak to a first aider in school.
