

Health and Safety Report 25/02/2019

Prior to my visit I received from Emma Beeston a copy of the schools Health and Safety Policy which is in line with the LEAs guidelines.

The visit consisted of a meeting with Emma Beeston (Headteacher) where she informed me of the new developments
e.g. new school entrance, security cameras, the periods of time the entrance is secured etc.

Included in our meeting was a general chat about the safety and security in the school and the staff responsibilities in these areas.

I was then taken on a tour of the school and shown the internal and external areas which are included in the Health and Safety policy.

I also was able to speak to Julie Johnson (Office Manager) as to her input in the organisation of checks and paperwork concerning Health and Safety.

I am more than happy that the school is meeting its Health and Safety obligations and our children are in a safe and secure environment.

Kathleen Hope
Parent Governor.
